

MOP FRAME

in-mould Velcro system

Our mop frame is made of premium-quality aluminium and features an in-mould Velcro system. The frame is equipped with plastic side bumpers to protect walls and furniture. Its articulated joint allows 360° movement, while the quick and universal locking mechanism ensures a firm and secured fixation to the handle.

Mop frame dimensions: L 40 x W 10 cm

Features

- Private label personalisation options: labls, printed logos, etc.
- Compatible products:
 - SMARTLINE handle
 - SMARTLINE telescopic handle
 - ERGO telescopic handle
 - CLASSIC PRO water reservoir handle
- Advantages of the in-mould Velcro system:
 - Prevents the accumulation of dirt
 - Ensures more stable adherence of the micro-fibre mop
 - No Velcro replacement needed
 - Easy microfibre mop replacement
 - Durable and lightweigh
- Universal screw-lock connection system

Microfibre mop

The washable microfibre mop can be easily attached to the mop frame via the Velcro strip. The universal microfibre does not leave marks or scratches, making it suitable for both domestic and professional use. The microfibre mop has a Velcro backing, making it fully compatible with our aluminium mop frame.

Microfibre mop dimensions: L 42 x W 11.5 cm
